

Pneumatic Pressure Hand Pump

HS701

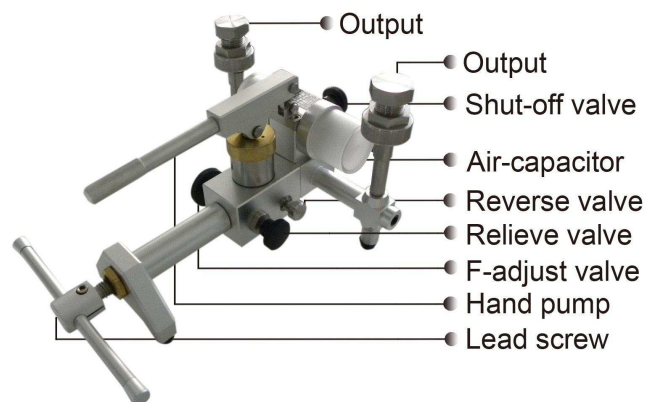

- Portable only 2.2kg
- Generated pressure range from vacuum to 6bar

Description

HS701 Pneumatic Pressure Hand Pump is portable structure and designed to generate pressure from vacuum to 6bar. Built-in filter protects the pump from dirty and make maintenance convenient. External air capacitor and shut-off make the micro pressure calibration more stability. Especially the screw pump design make the minimum pressure adjust get 1Pa(0.01mbar) . It widely calibrates pressure instruments in field and laboratory.

Specification

- Generated pressure range:(-0.95-6)bar
- Working medium:Air
- Adjust resolution:1Pa (0.01mbar)
- Output connection:M20×1.5Female
- Weight:Only 2.2kg
- Dimension:286L×198W×140H(mm)

Standard delivery

O ring:30pcs
Test report :1copy
Instruction manual :1copy

Optional

½", ¼", ⅛", ⅜" BSP or NPT adaptors
Master gauge
Pointer puller
